Professional Summary

Flutter Developer experienced in building scalable mobile apps using Flutter, Firebase, and Supabase. Skilled in UI development, state management, Firestore queries, authentication flows, and local storage. Strong problem solver, fast learner, and passionate about clean, maintainable code.

Technical Skills

- Dart
- Flutter
- Provider
- State Management
- Firebase Auth
- Firestore

- Supabase
- REST APIs
- Hive
- SQLite
- UI/UX Implementation
- Widgets & Layouts

- Git & GitHub
- SharedPreferences
- carousel_slider
- persistent_bottom_nav_bar
- Debugging
- Clean Architecture (learning)

Experience

Flutter Developer (Freelance Projects)   2024 – Present
- Built production-grade UIs such as home screens, product pages, booking pages, and bottom navigation flows.
- Integrated Firebase Auth, Firestore CRUD operations, and real-time updates into multiple apps.
- Developed reusable widgets, helper modules, and structured folder architecture for scalable codebases.
- Implemented Hive and SharedPreferences for persistent storage, user settings, and session data.

Junior Developer Intern – Bridgeon Solutions LLP   2023 – 2024
- Contributed to Flutter UI development, API integration, and bug fixing for live client applications.
- Improved UI performance by optimizing widget structure and reducing unnecessary rebuilds.
- Worked in Agile sprints, participating in code reviews and Git workflow practices.

Projects

AutoCare App — Flutter Mobile App (Firebase Auth + Firestore)   **GitHub**
- Service booking app with Firestore backend, user authentication, and provider dashboards.
- Built My Bookings page, booking status UI, Firestore queries, and custom navigation flows.

Shopping Hub — Flutter E-Commerce (REST APIs, Provider, Dio)   **GitHub**
- Built a modern e-commerce Flutter app using REST APIs, Dio networking, Provider state management, and MVC architecture. search functionality with a clean and responsive UI.

Student Record App — Flutter Mobile App (Hive Storage + Provider)   **GitHub**
- Add/Edit student form, Hive database integration, search functionality, and image picker support.

Cafe Today App — Flutter Mobile App (Hive Local Database)   **GitHub**
- Built a smart cafe ordering app using Flutter with Hive-based local storage for cart, favorites, and menu caching.

Education

Bachelor of Commerce (Accounting & Finance)   2019 – 2022
Bharathiar University
